Sport is Culture

The International Fair Play Passport is evidence of your involvement in the Fair Play Environment. It serves as a testimony of your dedication to the values of equality, participation, friendship, solidarity, trust, respect, love and sportsmanship.

It serves as a messenger for both the significance of ethics and integrity in sports and the important role that sports play as a productive tool for fostering peace and harmony.

We all need to hold the values that this passport stands for with respect and send the message around the world through sports.

Spiros Gianniotis, GRE
Silver Olympic Medalist—Rio 2016
Marathon Swimming

Having lived my entire life in athleticism, participating in 6 Olympic Games and being a champion in shooting for more than 40 years, I can cordially say that the greatest success is not when you win a medal but when you live your life, in and outside of sports, respecting, believing and promoting the Olympic Values.

This is how sports make us not just better athletes but more importantly, better persons which is actually what our contribution is, either as young or as veteran athletes, to our society.

The International Fair Play Passport, is your compass, to a better world.

Aghi Kasoumi, GRE
OLY shooting

How was it born ?

The island of Procida was the Italian capital of culture 2022

The project «Procida where sport is also culture» and the «Fair play Passport of Procida» were created by prof. Gennaro Testa, sport sociologist, creator, and author of the International Fair play Passport, owner of the copyright ©

During a ceremony in June 3rd in Olympia, Greece, the Procida Passport evolved into the International Passport, in collaboration between the Italian Olympic Academy (AONI) and the Hellenic Olympic Academy (HOA)

Sport is Culture

What is the passport ?

- The International Fairplay Passport is a passport of Sport Values
- It is considered proof that a person espouses the Olympic/Sport Values
- It was born from the collaboration of AONI and HOA

Sport Values Passport

The International Fair Play Passport involves the whole world, without any borders
It goes beyond pure sports; regardless of cultural differences

It has the potential to shape a global Sports Culture

Who is it for ?

The passport isn't only for athletes, technical officials, referees, coaches and federations but also for society, schools, universities, clubs and institutions

It's a model of behavior that serves as an example, in sports and in daily life
